- Special Design Outdoor Parka, waterproof
- Breathable membrane laminated outer fabric
- Windstopper fabric channel polyester
- Heat-pro fiber bone opti-thread high-strength
- zipper made of micro polyester thin fibers
- Adjustable waistband
- Special design hoodie fabric

## SHELLDT01

### TECHNICAL FEATURES

- Material: Water-repellent outer fabric made of a polyester and elastane blend
- Breathability: Micro-perforated membrane and
- Anti-Pilling micro fleece inner layer
- Waterproofing: 10,000 mm water column, waterproof zippers
- Design: Ergonomic cut, hooded, adjustable cuffs and hem

## KOLT20

### TECHNICAL FEATURES

- Material: 2-layer construction (1st layer: 95% polyester, 5% elastane; 2nd layer: micro-perforated PU or polyester membrane)
- Waterproofing: 10,000 mm waterproof rating
- Insulation: High-performance insulation providing protection down to -20°C
- Breathability: Highly breathable and moisture-managing membrane (Hot Melt System Lamination)
- Additional Features: Water and oil-repellent properties, heat-retaining inner lining

# TACTICAL SHIRTS

## VLAC01

### TECHNICAL FEATURES

- Material: Ribbed polyester and pique knit
- Breathability: Sweat-resistant fabric structure
- Usage Areas: Suitable for tactical, outdoor, and casual wear
- Additional Features: Quick-drying and lightweight material

## POLSW06

### TECHNICAL FEATURES

- Material: Anti-pilling fleece fabric
- High Thermal Resistance: Superior protection against cold weather conditions
- No Pilling: Does not pill even after long-term use
- Raglan Sleeve Design: Honeycomb-structured fleece fabric on the sleeves ensures high breathability
- Closure: Durable and reliable YKK zipper

## TACX01

### TECHNICAL FEATURES

- 50% Cotton, 50% Polyester: Durable and comfortable fabric
- Colorfast\* Technology: High fade resistance
- Double-Twisted Yarn and Ribbed Weave: Tear-resistant durability
- Anti-Bacterial: Maintains 60% of its anti-bacterial properties for up to 20 washes
- 4-Season Use: Ideal for all seasons

## BORX01

### TECHNICAL FEATURES

- Specially designed in every aspect
- High strength cotton and elastane blended fabric
- Anti-bacterial fabric
- Water repellent and sweat absorbent
- Provides air circulation in the body with underarm ventilation channels
- Relaxed fit, round neck
- Different printing models
- 95% Cotton, 5% Elastane

# TACTICAL PANTS

## BORX11

### TECHNICAL FEATURES

- Anti-Pilling fleece fabric handy pockets
- Non-pilling structure
- Special fleece jacket providing high thermal resistance
- Convenient YKK-brand zipper

## HIDDEN13N

### TECHNICAL FEATURES

- 50% Polyamide, 50% Cotton
- Double-thread blended warp yarn
- Ripstop webbing
- High fade resistance with colorfast+ feature
- High tear and abrasion resistance
- Fabric structure that absorbs sweat and repels water and stains
- Antibacterial fabric
- Handy pockets, 7 pcs
- Waistband structure with tunnel elastic
- YKK-brand zippers
- Double-stitched seam construction including inner legs
- Swift structure in crotch section
- Relax pattern

## WINTAC12

### TECHNICAL FEATURES

- Technological fabric structure that repels water and absorbs sweat
- Technological fabric structure that absorbs sweat and prevents sweat tracks
- This fabric provides high fade resistance with Colorfast+ feature
- 4-way stretchable Lycra elastane fabric
- Anti-Bacterial (maintains its anti-bacterial properties by 60% up to 20 washes)
- Ease of use with elastic waist structure
- Handy pockets, 4 pcs
- YKK-brand zippers
- Designed to prevent knee deformation and knee scarring owing to the slanted patch on the knee section

## WINTAC11

### TECHNICAL FEATURES

- Technological fabric structure that repels water and absorbs sweat
- Technological fabric structure that absorbs sweat and prevents sweat tracks
- This fabric provides high fade resistance with Colorfast+ feature
- 4-way stretchable Lycra elastane fabric
- Anti-Bacterial (maintains its anti-bacterial properties by 60% up to 20 washes)
- Ease of use with elastic waist structure
- Handy pockets, 4 pcs
- YKK-brand zippers
- Designed to prevent knee deformation and knee scarring owing to the slanted patch on the knee section

# TACTICAL BAG

## RACARTY160

### TECHNICAL FEATURES

- This specially designed backpack measures 50 cm x 90 cm x 35 cm with a 160-liter capacity, providing ample space for carrying various items.
- Made from 100 Dtex Cordura fabric, it is highly resistant to water, wear, and tear, ensuring durability in harsh conditions.
- The 180-degree openable lid allows easy access while maintaining the bag's shape. Its 55 cm plastic-reinforced base enhances durability.
- For convenience, it includes a carry handle and a side grab handle, offering multiple carrying options.
- To ensure secure transportation, the bag features two adjustable compression straps (5 cm wide).
- A transparent top pocket provides quick access to important items and documents.
- On the sides, there are three full-length zippered pockets to maximize storage and organization.
- The built-in wheels enhance mobility, making it ideal for travel, outdoor activities, or heavy loads.
- The rigid top lid allows stacking for efficient storage. Additionally, four durable plastic feet provide stability when placed upright.
- With its versatile carrying options, durable materials, and large capacity, this backpack is a reliable solution for both everyday use and professional needs.

## TACARY60LT

### TECHNICAL FEATURES

- Made of water-repellent Cordura fabric. Has a detachable front backpack.
- Suitable for shoulder carrying. Can be attached to a 60-liter backpack or used separately.
- Consists of 1 compartment and 3 pockets. Features 1 multi-purpose bag on each side. Can carry specialized items like shoes, etc.
- Separate top compartment available.
- The front pocket section is supported with zippered compartments and consists of 3 sections.
- The large main compartment has an elastic section and a camelbag carrying slot.
- Dual air vents with adjustable features.
- Back section is supported with air mesh for airflow.
- Waist belt support helps minimize bag weight.
- A metal piece inside the back panel helps stabilize posture and balance weight.
- Equipped with multiple molle system attachments. Includes 1x 60L backpack, 1x chest pack, 1x right-side pack, 1x left-side pack, and 1x additional bag.

## OFFARY15

### TECHNICAL FEATURES

- This modern tactical office bag is designed with multiple compartments, pockets, and MOLLE webbing to securely and comfortably carry your laptop, notebook, documents, and additional accessories. It offers exceptional versatility for both daily use and tactical needs, allowing you to carry your tactical style wherever you go.
- The outer cover features a lightweight, durable modular panel instead of traditional MOLLE webbing. The OFFARY15 Bag is a unique product with a dual-zippered main compartment, dedicated laptop sections, two side carrying areas, four storage compartments under the flap, and a suitcase attachment section.
- Designed for both shoulder and hand carry, this bag ensures the secure transportation of laptops and documents, combining functionality with tactical aesthetics.

## TACARY40LT

### TECHNICAL FEATURES

- Made of water-repellent Cordura fabric.
- A high-performance and multi-purpose backpack.
- Fully openable main compartment.
- Features 20 practical compartments.
- Includes a special compartment for a laptop and a pair of glasses.
- Contains 6 liner pockets, 3 mesh pockets, and an additional inner mesh pocket.
- Has a small top pocket and a back compartment.
- Equipped with a helmet holder, handgun slot, and camelbag compartment.
- Front and right molle attachment points.
- Main gusset consists of a molle system.
- Shoulder straps and back panel are made of air mesh and molle system.
- Dual zipper section in the main compartment.
- Origin: Turkey.
